NOTES

On June 3, 1986, Statistics Canada conducted the 1986 Census of Population. This publication summarizes **1986 Census data for Ontario's 130 Provincial Electoral Districts (PEDs)**. The boundaries of the PEDs conform to those outlined in Bill 77 (1986).

Data were collected either on a 100 per cent basis (i.e. for all households) or on a sample basis (i.e. from one in every five households) with data weighted to provide estimates of the entire population. All pages are noted accordingly.

The 20 per cent sample data were not collected from institutional residents. Institutional residents are defined as those individuals, other than staff members and their families, who live in institutional collective dwellings such as homes for the elderly, hospitals and correctional institutions.

All data pertaining to the labour force apply to the population 15 years of age and over excluding institutional residents.

On some Indian reserves or settlements, census enumeration was not permitted or was interrupted. Consequently, data for an estimated 11,821 individuals living on Ontario Indian reserves and settlements are not available. Whenever data are excluded from a PED profile due to this problem a footnote exists.

Compusearch Market and Social Research Limited of Toronto digitized the boundaries and aggregated Enumeration Area (EA) data for each PED. The aggregation was based on the Enumeration Area's population weighted centroids falling within the boundaries of the PEDs.

DATA PRESENTATION

Prior to releasing EA data, Statistics Canada randomly rounds this data to a multiple of five and suppresses small cell counts to preserve the confidentiality of individuals. Totals for the same census concept may differ because they are summations of independently random rounded EA data.

Population and household counts published by Statistics Canada not subject to EA suppression were used as "control totals" for data presented in this publication. The percent distribution of characteristics inside each PED derived from the database were maintained and applied to these "control totals" to impute the missing data. Data have been rounded to the nearest 10 and are represented by two dashes (- -) if their values were less than 50.

DEFINITIONS

The definitions of geographic terms and census concepts presented here are those of Statistics Canada and are in summary form only. Users should refer to the **1986 Census Dictionary (Catalogue No. 99-101E or F)** for the full definitions and additional remarks related to these concepts and definitions.

GEOGRAPHIC TERMS

ENUMERATION AREA (EA)

Refers to the area usually canvassed by one Census Representative. The number of households in an EA generally varies between a maximum of 375 households in large urban areas to a minimum of 125 in rural areas. Enumeration areas are normally the smallest geographic unit for which census data are available.

CENSUS CONCEPTS

CENSUS FAMILY

Refers to a husband and a wife (with or without children who have never married, regardless of age), or a lone parent of any marital status, with one or more children who have never married, regardless of age, living in the same dwelling. For census purposes, persons living in a common-law type of arrangement are considered married, regardless of their marital status; they accordingly appear as a husband-wife family in most census family tables.

CENSUS FAMILY STRUCTURE

Refers to the classification of census families into husband-wife families (with or without children present) and lone-parent families by sex of parent.

DWELLING

Refers to a set of living quarters in which a person or group of persons resides or could reside.

EMPLOYED

Refers to persons who, during the week prior to June 3, 1986: (a) did any work at all excluding housework or other maintenance or repairs around the home and volunteer work; or (b) were absent from their job or business because of own temporary illness or disability, vacation, labour dispute at their place of work, or were absent for other reasons.

GROSS RENT

Refers to the total average monthly payments paid by tenant households to secure shelter.

Gross rent includes payments for electricity, oil, gas, coal, wood or other fuels, water and other municipal services and monthly cash rent.

HOUSEHOLD MAINTAINER

Refers to the person, or one of the persons, in the household who pays the rent, or mortgage, or the taxes, or electricity, etc., for the dwelling. If such a person is not present in the household, then Person 1 is assigned as the household maintainer.

HOUSEHOLD TYPE

Refers to the basic division of private households into **family** and **non-family households**. **Family household** refers to a household that contains at least one census family (e.g., persons living in the same dwelling who have a husband-wife or parent and never-married child relationship). **One-family household** refers to a single census family that occupies one private dwelling. The family may be that of the person responsible for household payments (primary family) or a family in which the person responsible for household payments is not a member (secondary family). A **multiple-family household** is one in which two or more census families occupy the same private dwelling. Additional persons may or may not be present in such a household.

A **non-family household** refers to one person who lives alone in a private dwelling, or to a group of persons who occupy a private dwelling and do not constitute a census family.

INCOME

Refers to the income reported for the 1985 calendar year.

INDUSTRY (BASED ON THE 1980 STANDARD INDUSTRIAL CLASSIFICATION)

Refers to the general nature of the business carried out in the establishment where the person worked, as indicated by the name of the employer and the kind of business, industry or service.

Abbreviations

- Agricultural & related – Agricultural and related service industries
- Mining, Quarrying, etc. – Mining (including milling), Quarrying and oil well industries
- Communication – Communication and other utility industries
- Real Estate & Insurance – Real estate operator and Insurance agent industries
- Accom., Food & Bev. Serv. – Accommodation, Food and Beverage Service industries

LABOUR FORCE ACTIVITY

Refers to the labour market activity of the working age population who, in the week prior to June 3, 1986, were **employed** or **unemployed**. The remainder of the working age population is classified as **not in the labour force**. In the **1986 Census**, **contrary to previous censuses**, a question on school attendance was not asked. This question was used to edit the labour force activity variable, specifically unemployment. Consequently, the processing differences affect the unemployed population and are mostly concentrated in the 15-19 year age group.

Data relating to females 15 years of age and over by presence of children apply to females in occupied private households only.

MARITAL STATUS

Refers to the conjugal status of a person. In this publication, single refers to all persons who have never married (excluding all persons less than 15 years of age). Married refers to persons whose husband or wife is living, unless the couple is separated or a divorce has been obtained. Persons living common-law are considered married.

MOBILITY STATUS

Refers to the relationship between a person's usual place of residence on Census Day and his/her usual place of residence five years earlier. **It applies to the population five years of age and over.**

MOTHER TONGUE

Refers to the first language learned in childhood and still understood by the individual at the time of the census.

The mother tongue question asked in the last two censuses was the same, but the instructions to respondents were modified.

In 1981, respondents were asked to indicate only one mother tongue. To better reflect the linguistic reality in Canada, these instructions were dropped from the 1986 Census. **Under the new guidelines, individuals could report more than one mother tongue if they had learned them at the same time and had spoken one as frequently as the other when they were children.**

This publication shows only the number of single mother tongue responses.

NOT IN LABOUR FORCE

Refers to those persons, who, in the week prior to enumeration, were unwilling or unable to offer or supply their labour services under conditions existing in the labour market.

OCCUPATION (BASED ON 1980 STANDARD OCCUPATIONAL CLASSIFICATION)

Refers to the kind of work persons were doing during the reference week, as determined by the kind of work they reported and the most important duties they described in their job.

Abbreviations

- Managerial, Admin., etc. – Managerial, Administrative and related occupations
- Natural Sciences, etc. – Occupations in Natural Sciences, Engineering and Mathematics
- Artistic, Literary, & Recr. – Artistic, Literary, Recreational and related
- Farming, Hort., etc. – Farming, Horticultural and Animal Husbandry occupations
- Mining & Quarrying – Mining and Quarrying, including oil and gas field occupations
- Product Fabricating, etc. – Product Fabricating, Assembling and Repairing occupations
- Transport Equipment – Transport Equipment operating occupations
- Material Handling & related – Material Handling and related occupations, n.e.c.
- Other Crafts & Equip. Oper. – Other Crafts and Equipment Operating occupations
- Occupations n.e.c – Occupations not elsewhere classified

OCCUPIED PRIVATE DWELLING

Refers to a private dwelling in which a person or group of persons is permanently residing on Census Day. Also included are private dwellings whose usual residents are temporarily absent on Census Day. Unless otherwise specified, all data in housing reports are for occupied private dwellings. The categories owned and rented refer to occupied private non-reserve dwellings only.

OFFICIAL LANGUAGE

Refers to the ability to conduct a conversation in Canada's official languages - English and French.

OWNER'S MAJOR PAYMENTS

Refers to the total average monthly payments made by owner households to secure shelter.

Owner's major payments include payments for electricity, oil, gas, coal, wood or other fuels, water and other municipal services, monthly mortgage payments, and property taxes (municipal and school).

PARTICIPATION RATE

Refers to the **total labour force** (in reference week) expressed as a percentage of the **total population 15 years of age and over**, excluding institutional residents, in an area, group or category.

PERIOD OF CONSTRUCTION

Refers to the period in time during which the building or dwelling was originally constructed.

PLACE OF BIRTH

Refers to specific provinces if born in Canada, or to specific countries if born outside Canada.

POPULATION 1981

Refers to the 1981 estimated total population for the PED. The methodology used to calculate the 1981 total population in this publication differs from that used in the last PED publication. Consequently, the 1981 population total may differ.

PRESENCE OF CHILDREN

Children refers to sons and daughters (including adopted children and stepchildren) who have never married, regardless of age, and are living in the same dwelling as their parent(s).

PRIVATE DWELLING

Refers to a separate set of living quarters with a private entrance either from outside or from a common hall, lobby, vestibule or stairway inside the building. The entrance to the dwelling must be one which can be used without passing through the living quarters of someone else.

PRIVATE HOUSEHOLD

Refers to a person or persons (other than foreign residents) who occupy a private dwelling and do not have a usual place of residence elsewhere in Canada. **The number of private households equals the number of occupied private dwellings.**

SCHOOLING: HIGHEST LEVEL OF

Refers to the highest grade or year of elementary or secondary school attended, or the highest year of university or other non-university completed. University education is considered to be above other non-university. Also, the attainment of a degree, certificate or diploma is considered to be at a higher level than years completed or attended without an educational qualification.

STRUCTURAL TYPE OF DWELLING

Refers to the structural characteristics and/or dwelling configuration, that is, whether the dwelling is a detached single house, an apartment in a building with five or more storeys, a multiple dwelling, e.g., a row house, a detached duplex or an apartment in a building with less than five storeys, or a movable dwelling, e.g., a mobile home.

TOTAL LABOUR FORCE (IN REFERENCE WEEK)

Refers to persons who were either **employed** or **unemployed** during the week prior to enumeration (June 3, 1986).

UNEMPLOYED

Refers to persons who, during the week prior to enumeration: (a) were without work, had actively looked for work in the past four weeks and were available for work; or (b) had been on lay-off and expected to return to their job; or (c) had definite arrangements to start a new job in four weeks or less.

UNEMPLOYMENT RATE

Refers to the **unemployed** labour force expressed as a percentage of the **total labour force** (in reference week) in an area, group, or category.

VALUE OF DWELLING

Refers to the amount expected by the owner if the dwelling were to be sold.
